Annapurna Expedition

8,091m (26,545ft)

Annapurna I (8091m/ 26,545ft.) is the 10th highest mountain globally and the eighth highest mountain in Nepal. Annapurna I is the lowest 8000m peak but is one of the most technical climbing peaks in the Himalayas. The Annapurna massif contains six major peaks, Annapurna I (8091m/ 26,545ft) Annapurna II (7937m/ 26,040ft) Annapurna III (7555m/ 24,786ft) Annapurna IV (7525m/ 24,688ft) Gangapurna (7455m/ 24,457ft) Annapurna South (7219m/ 23,684ft). Climbing Annapurna Expedition is hard for untrained mountaineers guides due to the snow slope. Annapurna is one of the world's most technical mountains; for that reason, it has a lousy fatality to summit ratio. Climbing Annapurna is a severe adventure and one of the world's most difficult 8000m peaks. But there is hope that a new route was used this year and will be the best and safest route to climb moving forward.

Trekking/ Hiking

Nepal is regarded as the number one destination in the world for adventure trekking. The level of adventure that is provided by the cultural diversity and jaw-dropping landscapes are like something from another planet. trekking on foot is the best way of knowing the people and places intimately. A network of well-managed trails throughout the trekking places would easily connect you with the numerous villages in Nepal.

Mera peak and Ama Dablam ascent

My friend and I had unusual request to climb Ama Dablam via non-standard route. Rishi and his managers organized our trip and helped with permits, transfers and porters. Rishi was always responsive and helpful. There were some issues, but all of them have been resolved successfully. Overall, I would recommend Satori as tour agency - they have staff in different locations and can help with variety of demands.

Himalayas! Satori Adventures! : both are wonderful!

We found the Satori Adventures Company on the recommendation of mountaineering friends. The trek was organized fantastically. The staff and the owner of the company were very helpful and tried to make our trip unforgettable. We already miss the Himalayas and the Satori team. We will use their services again.

Great outfitter: they take care of everything from beginning to end of the trip

This was my second trek with Satori adventures. I had done Gokyo Ri trek with them 2 years ago and experience was great, so this time, we went to Amadablam base camp. I went with my cousins.

Rishi, the proprietor, provided personal communication for everything. Our guide Santosh was great both times and adjusted our schedule based on our capabilities and weather conditions.

Satori Adventures takes over once you land in Kathmandu and manages everything till they drop you off at the airport for your return flight. That is particularly what I like about them. No worries about small things like airport transport or arranging hotels on your own. Meals except breakfast, in Kathmandu are on your own.

If I was to do another trek in Nepal, I would definitely engage them.

Ama Dablam Expedition Spring 2024

The Ama Dablam expedition has surpassed all my expectations. From day one the organization of the trip was extremely well done and didn't have to worry about anything. All this gave me great that I was with a very professional team! The food was always excellent and very diverse. We had a very strong team of Sherpas and staff members, who were always friendly and willing to help whenever we needed them. So Satori Adventures is highly recommended in every way and the whole experience was something that will stay in my memory for the rest of my life. Can't wait until my next climb with them! Many Thanks to my Brothers: Rishi, Pasang Sherpa, Lakpa Sherpa, Gyalzean Sherpa and all Satori Adventures Nepal staff for support, safe climbing, great fun during the expedition. Never stop exploring!

Reviews from Trip Advisor "What our client saying about us"

Excellent service and flexibility of Satori Adventures

Satori organized the 40 day trip to Nepal for me and a good friend of mine. After Rishi's first proposal of a shorter and more generic trip to EBC with Lobuche East and Island peak, we asked for a longer and more challenging experience with a custom route. This was no problem at all (at a new price, of course), and Rishi came up with some extra program to complete our experience. In the end we started with a short 3-day trekking to Mohare Dada / Poon Hill near Pokhara and then flew to the Everest region. There we started with the classic 3 passes trekking which was planned to be extended with Island Peak, Amphu Laptsa pass and Mera Peak. Because of fatigue and bad weather, we decided on the way to descend back to Lukla before finally summitting Mera Peak and omit Amphu Laptsa. This added quite some extra costs to the trip which Rishi kindly didn't charge at all. Instead, we enjoyed several meals together in Kathmandu and received free gifts with a nice surprise at the end. Our Sherpa guide(s) (one for trekking and two for climbing), two porters and cooks at the camps always were very friendly, helpful, attentive, motivating and professional and did their best to ensure we had a great time in the mountains. We hope to return to Nepal one day and extend our experience together with Satori.

Best EBC experience

Absolutely amazing experience with Satori Group at Everest Base Camp! Very professional and took very good care of us all the way through. Best experience in Himalayas with them. The food the hotels they provided were top notch and couldn't ask for any better! The guide and the porters were also very professional and helpful. We were able to finish our trek in time in spite of weather delays - without feeling rushed > it was only possible with Satori. We had heard horror stories from other people on the trek who were with other groups/companies, but we had the best experience with Satori. Highly recommend them.

Went for EBC trek thru Satori adventures! The tour was very organized and they accommodated day trips , local porters, accomodations while we are in Khatmandu, provided local information, pick ups and drop offs from the airport! Great experience with Satori Team

Absolutely reliable, clear communication, on the go troubleshooting, very courteous owner and equally capable team. I would highly recommend Satori Adventure for your Himalayan incursions. Their team of guides, Sherpas and porters are excellent and always serving you with smiles. I can't recommend them enough. You can trust them for the best services.

Highly recommended - Best company to trek with for Everest Base Camp

We a team of 10 friends had an incredible experience to EBC with Satori Adventures. When we arrive at Kathmandu and due to havey rain and flooding all the flights got canceled but Rishi (Owner) has so many connections and he managed to get the booking to helicopter and flights were i can see other tour companies couldn't managed. Accommodation, food, our well-being, baggages, and every aspect of our needs were taken care of our guide Sunil and Rishi and his team. We find Sunil a well experienced, excellent and friendly guide, with several years of experience. He was giving so much support as some days we get so tired and decide I don't want to go ahead but his support and guidance help me to achieve my goal. Vivek , Deepak, Bhakta our porter were so friendly. Well known of the surrounding area, joyful, always eager to help, making sure our trek was comfortable. Overall, we are incredible pleased with the service, the friendship, the professionalism and the relief of being in good hands when we were trekking with Satori Adventures.

Top quality service at a very reasonable price. We couldn't do this trek without Satori Adventures support. We recommend them wholeheartedly!

Manaslu Expedition

When it came to wanting to climb an 8000m peak I was overwhelmed with options. I was put onto Satori Adventures and was so very pleased I was. The expedition was managed exceptionally well, and the support team were just fantastic. I genuinely couldn't have asked for more from my trip. Rishi extended 5* hospitality to us in Kathmandu too, which bookended the trip perfectly. I certainly hope to climb with Satori again in the future - thank you!

A dream came true!

Generally speaking, Nepal is a country everyone must see (at least) once in a life time! Trekking to EBC is an unique experience in itself, BUT having a professional local agency is crucial! We were lucky to have had such an agency - Satori Adventures! Excellent organization, professional, patience and very kind guides that embodied nepalese natural style. I am grateful to have met these people and a big THANK YOU to Satori Adventure for all the efforts concentrated to secure our trip and welfare in Nepal. I strongly recommend Satori Agency for any trip/trekking/ expedition you might plan to do in Nepal! Keep up the good work, guys! ;-)

Beautiful Manaslu Circuit

Had the most amazing trip with Satori Adventures. We trekked the Manaslu circuit with the hope to climb Larkya peak but unfortunately the weather was not on our side. It was my first experience of camping out at above 5000mts. We couldn't have asked for better care and support. Pemba, Tendi and the team were amazing.
Highly Recommended

Unique experience on EBC trek

Satori made our EBC trek and time in Nepal as best as it could be! Everything was always taken care of (change of plans due to flights, etc.) and communication was always easy. We also had to chance to spend some time at the basecamp with the expedition team which made our trip even more incredible. During the trek, we had a wonderful guide (Prakash) and porter. We always had amongst the nicest accommodation available on the trek which was really appreciated. Even during our time in Kathmandu, Satori team was always reachable and present. 100% recommend and will return!
